

Tire Fitment Worksheet

PLEASE PRINT CLEARLY

Please provide measurements for EXISTING front and rear tires/wheels. Then, provide "C" & "D" for the NEW tires/wheels you plan to run.

***NOTE:** Measure "E" to the FIRST point of contact. Look carefully up and down for the first point at the rear – which is often the leaf spring.

USEFUL TIP: Wheels are 1 inch wider than the size suggests. For instance a 15x7 is actually 8 inches wide overall. Width wise, to fit a 15x7 you will need 8 inches for the wheel plus tire bulge.

	FRONT				REAR			
	EXISTING		NEW		EXISTING		NEW	
	Left	Right	Left	Right	Left	Right	Left	Right
A Tire Sidewall To Rim Edge								
B Wheel Backspace								
C Overall Rim Width								
D Tire Width								
E Tire To Inner Surface*								
F Tire To Outer Surface
